

Exothermic Welding Powder

Amiable Impex

understands your values

CPRI, Bangalore

About Us !

Amiable Impex are the Manufacturer for Copper Bonded Rod and Importer, Supplier and Distributor of Exothermic Welding Powder and Accessories. We provide high quality Exothermic Welding Powder at reasonable rate with quickest lead time and fast response time.

Amiable Impex was formed by

- 1) Mr. Ujjwal Shah (Having Experience of more than 15 years in Electrical Markets) and**
- 2) Mr. Maulik Shah (B.Com, M.com, PGDBM, PGDFM, MBA)**

Amiable Impex was founded with the goal of being at the forefront in the Electrical Metal Industry in both India and overseas for Copper Bonded Earth Rods and Exothermic Welding Powder and Accessories. Since our foundation, the company has grown through continuous development. As a company, **Amiable** always strives to set its own agenda, rather than pursuing the business as a follower of existing market leader. Our Style of work is unique which always suits our Customer. We believe in giving Quality Product in Quality Service at Good price.

Amiable Impex endeavour to be a "more dynamic and competitive company" in order to respond appropriately to increasingly sophisticated and diverse customer requirements, and to provide superior value-added products through our innovation. We have very actively engaged in R&D activities to further improve of our product reliability and performance.

Our vision

We have set the four pillars of our vision which set out the long term direction for our company Amiable Impex where we want to go and how we are going to get there:

- We work to create a better future every day.
- We help our customers feel good, have good and get more out of life with our brands and services that are good for them and good for others.
- Whilst the company has ambitious plans for the future for its product range and its manufacturing abilities, our greatest objective will always be to maintain the highest level of quality assurance & service to the customer.
- We will develop new ways of doing business with the aim of doubling the size of our company while reducing our environmental impact.

Purpose & principles

The secret of our success is sincerity and the passion towards everyone we work with, the communities we touch, and the environment on which we have an impact. We understands our Customers Values"

Always working with integrity

Conducting our operations with integrity and with respect for the many people, organizations and environments our business touches has always been at the heart of our customer's responsibility and Satisfaction towards our quality assurance.

Positive impact

we aim to make a positive impact in many ways: through our brands, our commercial operations and relationships, through voluntary contributions, and through the various other ways in which we engage with our international and local customers.

Continuous commitment

we're also committed to continuously improving the way we manage our environmental impacts and are working towards our longer-term goal of developing a sustainable business and higher customer satisfaction through our unmatched service.

Setting out our aspirations

our purpose sets out our aspirations in running our business. It's underpinned by our code of business Principles which describes the operational standards that everyone at AMAIBLE follows, wherever they are in the world.

Future possibilities

we are proud of our reputation and Brand image through our continuous innovation and renovation.

Some of Our Esteemed Customers

LARSEN & TOUBRO

Copper Earthing Electrode Welded With Copper Strip

Copper Earthing Electrode Welded With Copper Strip

We offer a broad range of **Copper Bonded Earthing Electrodes**. These products offer cost effective and efficient earth rod Earthing system. These reliable earth rods are corrosion resistant and eliminate electrolytic action. Our products are formed of the following:

- Uniformly bonded pure copper electrolyte.
- High tensile steel core of thickness 0.254 mm.
- Coupling threads ensure thread strength and maintain integrity of the bonded copper.

Our clients can avail from us a range of **Copper Bonded Earthing Electrodes** which is manufactured using the most premium quality circular rods of low carbon steel for a high tensile strength and durability. We adhere to the specifications of Underwriters Laboratories (UL) 467-2007 and the copper earthing electrode is accordingly molecularly bonded with the exterior of the rod. It is highly effective and widely appreciated for its functionality among our clients.

Features of Copper Bonded Earthing Electrodes Welded With Copper Strip

With the incorporation of latest technology and skilled workforce, we offer a range of safe earthing Electrodes. These products offered by us have remarkable resistance against corrosion and ensure uniform earth contact resistance during their entire lifetime. Some other features of our products are:

- Optional electrical conductivity.
- High mechanical strength.
- Allow connection to earthing systems like foundation earthing and others.

Advantages

- Up to 250 micron CU Bonded on Steel
- Life Span: Due to 250 micron CU Bonded life is much more than GI & Cu Earthing Rods
- High Conductivity with High Strength
- Cost Effective as comparison to life span & CU Rods
- Highly Reliable in long Span

Applications

Efficient Earthing Systems reduce the risk of electrical arcing and fires. Our Safe Earthing Electrode improves reliability for many applications, including:

- Lightning protection systems.
- Prevention of accidents caused by static charge and stray currents.
- Protection of central communications, electronics, and AC power systems.
- Meeting earthing safety requirements for electrical substations.
- Earth fault neutralization.
- Safeguarding critical instrumentation and process control equipment.

Demanded By:

- Telecom sector
- Transmission and distribution systems
- Railways
- Banking Sector
- Buildings, Airports, Hotels
- Substation and Power Generators
- Equipment Body Earthing
- Petroleum Industry and Fuel Depot
- Manufacturing Units and Refineries
- Commercial Sector.

Amiable Impex is the only Company in India that offer Quality AiWeld Exothermic Welding Powder at reasonable rate and ensures delivery within 10 to 15 days in India. Get high quality products at quickest lead time with fast response time. Get Full Customer Satisfaction. Our Products are tested and approved by CPRI Govt Body, Its also CE and ROHS Certified and we are also certified by ISO 9001:2008

We are the India's largest supplier or dealer in Exothermic Welding Materials and offers a complete line of Exothermic Welding Powder Solutions to meet the needs of every user.
